

Prof. Masatoshi Hagiwara, KinoPharma's Founding Scientist, Receives the 2026 BIO Asia Award

On July 13, 2026, the International Organizing Committee of the BIO Asia Conference announced the recipients of the 2026 BIO Asia Awards.

The Individual Award will be presented to Professor Masatoshi Hagiwara of the Kyoto University Graduate School of Medicine, who is also the founding scientist of KinoPharma, in recognition of his outstanding contributions to elucidating the mechanisms of RNA splicing, advancing translational medicine, and developing innovative new therapeutics.

This photo, taken at the award ceremony, shows Professor Masatoshi Hagiwara (right) together with Premier Cho Jung-tai (left), whose position is equivalent to Japan's Prime Minister.
